Therapeutic Bronchoscopy Workshop

23 October 2025 | 13:00 – 16:30

Legian 1&2, Bali Nusa Dua Convention Center | Bali, Indonesia

Chair: Dr Eric Tenda, Indonesia | Co-chair: Dr Melvin Tay, Singapore

This workshop will cover the nuts and bolts of therapeutic bronchoscopy including rigid bronchoscopy and interventional modalities ranging from ballooning, both “hot” and “cold” ablation to airway stenting. The sessions will include a mix of brief, informative lectures and 4 practical, hands-on instruction.

Target audience: pulmonologists (all levels of training), thoracic surgeons

Workshop fees: USD 200

Stations include:

1. Rigid bronchoscopy – intubation
2. Rigid bronchoscope maneuvering, mechanical and balloon dilatation
3. Electrocautery, argon plasma coagulation, cryotechniques
4. Metallic and silicone airway stenting
5. Case discussions

Agenda	Speaker
1. Rigid bronchoscopy – intubation & Metallic and silicone airway stenting	Melvin Tay, Singapore
2. Rigid bronchoscope maneuvering, mechanical and balloon dilatation	Eric Daniel Tenda, Indonesia
3. Electrocautery, argon plasma coagulation, cryotechniques	Ronald Fajardo, Philippines
4. Medical Thoracoscopy : Scope Handling	Ray Rattu, Indonesia
