Basic & Advanced Diagnostic Bronchoscopy Workshop

23 October 2025 | 08:30 - 12:00
Bali Nusa Dua Convention Center | Bali, Indonesia

Chair: Dr Eric Tenda, Indonesia | Co-chair: Dr Melvin Tay, Singapore

This workshop will focus on back-to-basics of routine and more advanced diagnostic bronchoscopy procedures. It will feature concise, "all-you-need-to-know" content, encompassing essential theoretical knowledge and practical skills.

Target audience : Pulmonologists (all levels of training), thoracic surgeons

Stations include:

1. Upper and lower airway anatomy
2. Bronchoalveolar lavage and endobronchial biopsy
3. Transbronchial lung biopsy including cryobiopsy
4. Radial endobronchial ultrasound (R-EBUS)
5. Linear EBUS-guided transbronchial needle aspiration (TBNA) including mediastinal cryonodal biopsy and conventional TBNA

Topics	Faculty
1. Upper and lower airway anatomy	Ni Nyoman Indirawati Kusuma, Indonesia
2. Bronchoalveolar lavage and endobronchial biopsy	Mira Yulianti, Indonesia
3. Transbronchial lung biopsy including cryobiopsy	Eric Daniel Tenda, Indonesia
4. Radial endobronchial ultrasound (R-EBUS)	Pipetius Quah, Singapore
5. Linear EBUS-guided transbronchial needle aspiration (TBNA) including mediastinal cryonodal biopsy and conventional TBNA	Melvin Tay, Singapore
6. Medical Thoracoscopy : Scope Handling	Ray Rattu, Indonesia

Therapeutic Bronchoscopy Workshop

23 October 2025 | 13:00 - 16:30
Bali Nusa Dua Convention Center | Bali, Indonesia

Chair: Dr Eric Tenda, Indonesia | Co-chair: Dr Melvin Tay, Singapore

This workshop will cover the nuts and bolts of therapeutic bronchoscopy including rigid bronchoscopy and interventional modalities ranging from ballooning, both “hot” and “cold” ablation to airway stenting. The sessions will include a mix of brief, informative lectures and 4 practical, hands-on instruction.

Target audience : Pulmonologists (all levels of training), thoracic surgeons

Stations include:

1. Rigid bronchoscopy - intubation
2. Rigid bronchoscope maneuvering, mechanical and balloon dilatation
3. Electrocautery, argon plasma coagulation, cryotechniques
4. Metallic and silicone airway stenting
5. Case discussions

Topics	Faculty
1. Rigid bronchoscopy - intubation & Metallic and silicone airway stenting	Melvin Tay, Singapore
2. Rigid bronchoscope maneuvering, mechanical and balloon dilatation	Eric Daniel Tenda, Indonesia
3. Electrocautery, argon plasma coagulation, cryotechniques	Ronald A. Fajardo, Philippines
4. Medical Thoracoscopy : Scope Handling	Ray Rattu, Indonesia

Robotic Thoracic Surgery Workshop: The Mind, The Machine and The Future of Thoracic Surgery

23 October 2025 | 08:00 - 17:00
Bali Nusa Dua Convention Center | Bali, Indonesia

Chair: Gavin Wright, Australia | Co-chair: Aneez DB Ahmed, Singapore

Faculty : Christopher Cao, Australia | Seong Yong Park, Korea |
Abbas Abbas, USA | Usman Ahmed, Abu Dhabi
Thailand - Boonlawat Homvises | Suparauk Geanphun | Pandungkiat Tangpiroontham
Singapore - Harish Muthiah | Li Yue | Lowell Leow

Audience : Thoracic surgeons, advanced trainees, surgical fellows (limit to the 30pax)

Dry Lab with stimulator available for
training with single trainer
one on one coaching

Robotic Certification Programme

Time (UTC+8)	Agenda	Moderator / Speaker
08:00 - 08:30	Registration and Welcome Coffee	
08:30 - 08:40	Opening Remarks and Faculty Introduction	Gavin Michael Wright
08:40 - 08:45	Faculty Introduction	Harish Muthiah
Session 1	Lung Resections: Robotic Era meets Sublobar Era	Suparauk Geanphun
08:45 - 09:15	Robotic Segmentectomy: Principles, Planning and Execution	Gavin Michael Wright
09:15 - 09:30	Video Session: Left Upper Lobe Trisegmentectomy	Aneez Ahmed
09:30 - 09:45	Lingulectomy: Step-by-Step Technique	Christopher Cao
09:45 - 10:00	Superior Segmentectomy: Step-by-Step Technique	Balasubramoniam KR
10:00 - 10:15	Tumour Localisation Techniques Using Near Infra-red Imaging (FireflyTM)	Gavin Michael Wright
10:15 - 10:45	Video Session: Complex Segmentectomy with 3D Reconstruction	Seong-Yong Park
10:45 - 11:00	MORNING TEA	

Time (UTC+8)	Agenda	Moderator / Speaker
Session 2	Mediastinal and Chest Wall Surgery	Li Yue
11:00 - 11:15	Robotic Thymectomy Approaches: Left/Right/Both/Neither	Seong-Yong Park
11:15 - 11:30	Radical and Therapeutic Node Dissections	Christopher Cao
11:30 - 12:00	Radical and Extended Resection in the Mediastinum	Abbas Abbas
12:00 - 12:30	Thoracic Outlet Syndrome: Robotic Approaches to First Rib Resection	Aneez Ahmed
12:30 - 13:00	Video Session: Robotic-assisted Chest Wall Resection and Reconstruction	Gavin Michael Wright
13:00 - 13:45	LUNCH and INDUSTRY EXHIBITS	
Session 3	Rare and Evolving Robotic Applications	Boonlawat Homvises
13:45 - 14:15	Tracheal Resection and Sleeve Resection: To ECMO or Not To ECMO?	Balasubramoniam KR
14:15 - 14:30	Video Session: Resection of Posterior Mediastinal Mass	Christopher Cao
14:30 - 14:45	Diaphragmatic Plication Techniques: Pledget, Mesh, Resection?	Abbas Abbas
14:45 - 15:15	Hybrid Surgery: Robot X VATS; Robot X Sternotomy; Robot X Chest Wall	Gavin Michael Wright
15:15 - 15:30	AFTERNOON TEA	
Session 4	Disaster Management and Avoidance	Lowell Leow
15:30 - 15:45	Equipment Failure, Power Failure and Emergency Un-docking	Intuitive Surgical Speaker
15:45 - 16:00	Cost Containment Tips for Economic and Ecologic Sustainability	Intuitive Surgical Speaker
16:00 - 16:15	Lobectomy after Neoadjuvant Immunotherapy	Aneez Ahmed
16:15 - 16:45	<u>Round Table Discussion Cases and Q & A</u> Bleeding: When to Chill and When to Bail: Clips and Faculty Commentary? Faculty: My Disaster Case and How I would Avoid it in Future?	Gavin Michael Wright George Karimundackal Sabita Jiwnani

10:45 - 11:05	Surgical Anatomy & Electrophysiology of the Diaphragm - What a Surgeon Should Know? -Christopher Cao, Australia	Emerging Trends in EGFR - Mutant - NSCLC -Pasi A. Janne, USA	Workshop Chairs: -Kyle Hogarth, USA -Melvin Tay, Singapore
11:05 - 11:25	Single-port Thoracoscopic Surgery: Experience Sharing on Subcutaneous Tunneled Periareolar Incision -Bin Zheng, China	ALK+ NSCLC - Where are We Now & Have We Reached a Plateau? -Jennifer Leong, Malaysia	A) Didactic Rapid Evidence-based Review of RAB in Peripheral Bronchoscopy
11:25 - 11:45	Management of Hernias in Adults - Bochdalek Hernias -Balasubramoniam KR, India	MET-Driven NSCLC - Are We Making Progress? -Rogelio Velasco Jr, Philippines	B) Practical / Hands-on General Principles in • RAB Equipment & Set Up • RAB Registration & Navigation • RAB Biopsy Process
11:45 - 12:05	Reconstruction Techniques After Diaphragmatic Resection -Abbas Abbas, USA	Uncommon Targets in Targeted Therapy for Lung Cancer -Nadia Ayu Mulansari, Indonesia	◦ Lung Ventilation Protocol ◦ Biopsy Protocol Using Digital Tomosynthesis (DT) or Cone Beam CT (CBCT)
12:05 - 12:45	Q & A	The Role for RT in Oncogene Driven NSCLC -Jayson R. Paragas, Philippines	◦ Tips & Tricks to Improve Diagnostic Yield
		Q & A	
12:45 - 13:45	LUNCH SYMPOSIUM sponsored by MirXES	LUNCH SYMPOSIUM sponsored by Siemens Healthineers	
12:45 - 12:50	Welcome & Opening Remarks	New Frontiers in Image-guided Thoracic Surgery	
12:50 - 13:05	Enhancing Nodule Management with LUNGCLEAR: A Novel Lung Cancer Screening Tool Adjunct to CT Scan Surveillance -Aneez Ahmed, Singapore This presentation will showcase real-world application and performance of LUNGCLEAR, the world's first microRNA-based blood test designed to improve nodule management and lung cancer surveillance for surgeons and pulmonologists. The speaker will also share his experience of integrating LUNGCLEAR with CT scan assessments to facilitate surgical decision-making, nodule follow-ups, and potentially improve patient outcomes by providing more accurate lung cancer risk stratification.	Siemens Healthineers - A Global Player Providing State-of-the-art Image Guidance for Thoracic Surgery -Subha Dip Mukherjee (SD), Siemens Healthineers ARTIS Pheno in Thoracic Surgery - Reducing Time-at-risk and Enabling Minimally Invasive Approaches -Edmund Villaroman, Philippines From Hybrid OR to Mobile CBCT: A Practical Alternative for Image Guided Thoracic Surgery and Interventions -Shun-Mao Yang, Taiwan	
13:05 - 13:20	Real-World Case Series: How Tissue-based NGS Provides Effective Genomic Alterations Profiling to Guide Targeted Therapies -Toh Chee Keong, Singapore In this case series presentation, the speaker will discuss three real-world cases in which tissue-based next-generation sequencing (NGS) test identified the underlying sensitizing and resistant genomic alterations to guide targeted therapies in advanced non-small cell lung cancer patients.		
13:20 - 13:40	Q & A		
13:40 - 13:45	Closing Remarks & Networking - Summary Keypoints -Aneez Ahmed, Singapore		
Invitation to continue discussions during conference breaks at Mirxes booth
